An Equal Opportunity Employer

**Program Engineer/Stormwater Management – Bureau of Resource Management**

\$69,618 annual salary (Grade C15), 40 hours per week, exempt position

Hours are typically Monday through Friday from 8:00 am – 5:00 pm

**Apply by 5:00 pm on Friday, May 13, 2022**

The Bureau of Resource Management is seeking a professional engineer with stormwater management design experience to run the stormwater management program for Carroll County. The individual will work as part of a team dedicated to assisting developers, engineers, and surveyors navigate through local and state requirements.

Candidate should be familiar with all aspects of Maryland stormwater code including design of ESD practices and hydrologic and hydraulic design of structural practices. The ideal candidate will have practical experience using TR-55, TR-20, HY-8, HEC-RAS, Microsoft Excel, Microsoft Word, and Arc GIS.

Good written and oral communication skills will be required to convey technical information to recipients with varying degrees of technical background.

This is an excellent opportunity to join a Bureau dedicated to protecting the natural resources of Carroll County for the benefit of all citizens. The position is the lead technical expert in the field of stormwater management for the County and will guide policy and procedures as the science and best practices in the field continue to evolve.

Specific job responsibilities include review of development construction plans to ensure best engineering practices have been applied and compliance with state and local codes; technical expert and representative for internal and external discussions regarding policy, procedures, and code; technical resource for retrofit and new BMP design for the County NPDES permit program; and lead technical resource for dam safety in Carroll County.
